

## STATUARIO MARBLE

Statuario marble is a highly sought-after natural stone that is exclusively quarried in Italy, prized for its luxurious appearance and considered a symbol of opulence and wealth. Its very white background and striking grey veins make it a bold and impressive statement in any installation.

One of the reasons why Statuario marble is so highly valued is its rarity and exclusivity, with limited quarries producing the stone in small quantities. This makes it a popular choice for high-end applications in luxury hotels, high-end residential buildings, and commercial spaces.

Best suited for internal applications, Statuario marble is highly desirable and often used for kitchen benchtops and bathroom vanities to add a touch of luxury to any space. Its stunning appearance also makes it one of the ultimate materials for wall and floor tiles in bathrooms, creating a sophisticated and elegant look.

Statuario marble slabs and tiles are widely used in commercial applications and can be used on bars

and reception desks, creating striking focal points that are sure to impress.

In addition to its aesthetic appeal and durability, Statuario marble is also an eco-friendly and sustainable choice for environmentally conscious designers. As a natural stone, it is renewable, non-toxic, and can be recycled and reused, making it an environmentally responsible choice.
