

MONT BLANC QUARTZITE

Mont Blanc Quartzite is a natural stone that has captured the attention of designers and homeowners alike for its striking beauty and durability. Its warm, white background is complimented by wispy veins in shades of grey, taupe, and brown, creating a unique and elegant look that adds character to any space.

The large book-matched slabs of Mont Blanc Quartzite have become one of its most popular features. This unique characteristic allows the veining on one side of the slab to perfectly match the veining on the other side, creating a seamless and continuous pattern when the slabs are installed together. This makes it a popular choice for large-scale projects such as benchtops, flooring, and wall cladding where a uniform look is desired.

Mont Blanc Quartzite's durability and low-maintenance requirements have made it a popular choice for both residential and commercial projects. Its timeless beauty and versatility make it a perfect fit for a wide range of styles, from traditional to contemporary.

Whether you are looking to create a warm and inviting kitchen or a luxurious spa-like bathroom, Mont Blanc Quartzite is an excellent choice for your next renovation or new build project.

Applications:

- Kitchen Benchtops
- Splash Backs
- Vanity Top
- Floors and Walls
- Fireplaces
