

**GEO LUXE**  
Pyrolithic Stone™

OUR PRODUCT

GEOLUXE

# WHAT IS GEOLUXE®

---

**GEOLUXE®** is a breakthrough Pyrolithic Stone™ with the noble beauty of natural marble with superior technical performance. It is made from a complex mixture of **100% mineral-based materials** through patented GeoMimicry™ forming technology which enables realistic marble-like veins throughout the slab.

Thanks to its perfect characteristics overcoming the imperfections of natural marble and most of other manufactured surfaces, Geoluxe offers an ultimate combination of elegance and performance.

# GEOLUXE'S EXCLUSIVE POINTS

---

- **PRECIOUS MARBLE DESIGN**

Being inspired by rare and precious marbles from world's best sources curated by marble connoisseurs.

- **ONE-OF-A-KIND VIEN-THROUGH-BODY EFFECT**

The one and only man-made material that achieves vein-through-body effect by patented Geomimicry™ technology.

- **SUPERIOR TECHNICAL PERFORMANCE**

Overcoming the imperfections of natural marble and other manufactured surfaces by A complex mixture of 100% mineral-based materials without resin.
